CPPS 

Our Schools, Our Kids, Our Solution

The Problem

As school violence continues to spread across the country, lawmakers, school officials and students are looking for effective ways to confront this increasing risk. But the reality is that students don't "just snap" and almost always there are warning signs that are observable on the path to violence...violence against others...or violence against self. These warning signs are opportunities to intervene if recognized early and responded to appropriately.

The Solution

CPPS has developed a customized, Four-Tiered Training System specifically designed to educate students, teachers, and administrators how to recognize warning signs that a student may be progressing towards violence, and how to respond effectively if violence does erupt. "Beyond Lockdown - Preventing and Responding to Extreme School Violence" combines our years of expertise in the industry of personal safety and security and resources developed by the FBI, Secret Service, and the Department of Education to ensure the content is age appropriate and applicable to the positions and roles within the educational system.

Training and Education - A Tiered Approach

The CPPS "Beyond Lockdown" complete Training System includes four key areas tailored to the specific training group.

Tier 1 - Beyond Lockdown - Preventing and Responding to Extreme School Violence - FREE

This fifteen-minute NO CHARGE video is designed specifically for students (grades 6-12) and parents. It is also suggested that teachers and administrators watch this awareness video prior to any additional training offered within this program.

Tier 2 - Beyond Lockdown - Introduction to Threat Awareness and De-Escalation - Annual Fee

Teachers and administrators require a "deeper look" into the issue of Preventing and Responding to Extreme School Violence. This eLearning course enables them to better identify "Behaviors of Concern," recognize potential threats, and develop strategies for de-escalating tense situations before violence occurs.

Tier 3 - Beyond Lockdown - Behavioral Intervention/Threat Assessment Training - On Site Team Training - Fee Based

School District Behavioral Intervention or Threat Management Teams should receive the most detailed and comprehensive training regarding the behavioral or psychological aspects of school violence, violence risk screening, investigatory and intervention techniques, incident resolution, and case management strategies. This one-day course is conducted on-site at client location.

Tier 4 - Threat Management Advisory Team - Annual Retainer

An Annual Retainer for Districts to have 24/7 access to CPPS Threat Assessment Experts when concerns arise.

FBI National Citizens Academy Alumni Association Fully Endorsed

"The purpose of this letter is to provide a full endorsement of your newly developed video: "Beyond Lockdown - Preventing and Responding to Extreme School Violence." Our National Board found the video to be professionally filmed using believable student actors and a very credible storyline.

The FBINCAA is proud to provide this endorsement and is willing to assist in its distribution to as many schools in all our Fifty (50) States, as well as in Puerto Rico and Guam."
